/ittnk68/cnpm/type/AccountType.java

```
graph TD; A["src/main/java/com/hust<br/>/ittnk68/cnpm/type/AccountType.java"] --> B["java.util.Arrays"]; A --> C["java.util.Optional"]
```

The diagram illustrates the imports used in the file AccountType.java. A top box contains the file path. Two blue arrows point from this box to two bottom boxes, each containing an import statement: java.util.Arrays and java.util.Optional.

java.util.Arrays

java.util.Optional
