

src/main/java/com/hust  
/ittnk68/cnpm/Server.java

```
graph TD; A["src/main/java/com/hust<br/>/ittnk68/cnpm/Server.java"] --> B["org.springframework.boot.<br/>SpringApplication"]; A --> C["org.springframework.boot.autoconfigure.<br/>SpringBootApplication"]
```

The diagram illustrates a class hierarchy. At the top is a box representing the `Server.java` file located at `src/main/java/com/hust/ittnk68/cnpm/Server.java`. Two blue arrows point downwards from this box to two separate boxes below. The left box represents the `SpringApplication` class from the `org.springframework.boot` package. The right box represents the `SpringBootApplication` class from the `org.springframework.boot.autoconfigure` package. This indicates that both `SpringApplication` and `SpringBootApplication` inherit from or are related to the `Server.java` file.

org.springframework.boot.  
SpringApplication

org.springframework.boot.autoconfigure.  
SpringBootApplication
